Circular No.: **SIS-Cir./FN-40/2025-2026** Date: **17.09.2025**

CIRCULAR TO PARENTS- CLASSES 1, 3, 5, 7 & 9

VISION SCREENING BY MoPH

Dear Parents,

As part of our annual health check-up, the First Aid Unit conducts vision screening for students in Grades 1, 3, 5, 7, and 9.

This year, as per the updated Ministry of Public Health (MoPH) guidelines, the procedure has changed. For students identified with vision concerns, an official MoPH referral form will now be issued. After consulting the doctor, we kindly request you to return the completed referral form to the School First Aid Unit at the earliest. We will then forward the doctor's remarks to the MoPH.

Please note:

1. You may visit any private or government hospital for the eye check-up.
2. Some students were tested last week and given the school's referral form. Kindly do not use the old school form.
3. Only the new MoPH referral form must be used for the hospital visit.
4. The new form will be handed over to your ward this week.

We appreciate your cooperation in helping us ensure the continued health and well-being of our students.

Warm regards
Vice Principal
